## Microalbuminuria in hypertension

Welcome and opening remarks

### I Session

Chairmen: *A. Mimran (Montpellier, France), P. Palatini (Padua, Italy)*

Prognostic value of microalbuminuria in hypertension  
*G. Cerasola (Palermo, Italy)*

Microalbuminuria in the early stage of hypertension  
*M. Winnicki (Padua, Italy)*

Should the threshold value for microalbuminuria be redefined in hypertension?  
*A. Mimran (Montpellier, France)*

Discussion

Break

### II Session

Chairmen: *J. Redon (Valencia, Spain), C. Dal Palù (Padua, Italy)*

Factors related to the occurrence of microalbuminuria  
*J. Redon (Valencia, Spain)*

Microalbuminuria and 24h blood pressure rhythm  
*E. Lurbe (Valencia, Spain)*

Impact of microalbuminuria assessment in the stratification of risk in essential hypertension  
*R. Pontremoli (Genoa, Italy)*

Discussion

LECTURE:

Microalbuminuria reduction in hypertension and diabetes: do some drugs have a blood pressure independent effect?  
*G. Viberti (London, UK)*

Lunch

### III Session

Chairmen: *S. Julius (Ann Arbor, USA), J.L. Rodicio (Madrid, Spain)*

Effect of antihypertensive agents on microalbuminuria  
*L. Ruilope (Madrid, Spain)*

The prognostic implication of changes in microalbuminuria during antihypertensive treatment: data from the LIFE study  
*H. Ibsen (Glostrup, Denmark)*

Combination ACEI and ARB therapy: additional benefit in renoprotection?  
*N. Perico (Bergamo, Italy)*

Discussion

Break

---

#### IV Session

Chairmen: *G. Maschio (Verona, Italy), A.C. Pessina (Padua, Italy)*

Microalbuminuria in the hypertensive patient with diabetes  
*P. Fioretto (Padua, Italy)*

Microalbuminuria in the hypertensive patient with acute myocardial infarction  
*G. Berton (Conegliano Veneto, Italy)*

Microalbuminuria in the early stage of hypertensive kidney disease  
*L. Calò (Padua, Italy)*

Closing remarks
